

What would GM crops mean for British farmers?

Hear Canadian Farmer Percy Schmeiser talk about the effect that growing GM crops commercially is having in his home country

Listen to Percy's astonishing experiences about the knock-on effect of GM contamination, which have gained him worldwide recognition

Debate what GM crops could mean for British farmers and the right to choose food free of GM contamination

Percy Schmeiser, Canadian farmer and recipient of the internationally recognised 'Right to Livelihood Award' 2007

For more information see www.percyschmeiser.com

Tour organised and supported by GM Free Cymru, GM Freeze, Friends of the Earth, Gaia Foundation, Family Farms Association and Small Farms Association
